The IT competency hub

Practice Labs Product Portfolio

October 2020

Welcome to our Practice Labs Product Portfolio

Our Practice Labs are aligned with specific vendor certifications. As vendors replace or update these certifications, we develop a new Practice Lab.

Although vendors often 'retire' certifications, the associated Practice Labs remain active for customers still wishing to access them. Customers can also utilize specific modules from retired titles to create their own Custom Labs – mixing and matching content from across our library to address a business need or map to a curriculum.

To find out what new Practice Labs we currently have in development, and when they are scheduled for release, check out our **Content Development Roadmap**.

If there is a particular title you would like to know more about, or if you're an instructor looking to trial a specific Practice Lab, use **this link** to get in touch with one of our education partner specialists, who will be happy to help.

Live-lab available

Exam Prep available

Title retired but still available

PLABS				
IC3 GS5	IC3 Digital Literacy Certification – Global Standard 5	✓		
PLAB-CEH-v10	Ethical Hacker	✓		
CUS-EH	Ethical Hacker	✓
