Large employee turnover?
Metrics tell an amazing story

94% of employees have said that they would stay at a company if they would just invest in helping them learn

The cost to replace an employee averages **33%** of the position's annual salary

- Corporate e-learning takes 40% to 60% less time to complete when compared to traditional learning.
- Approximately 77% of US corporations used online learning. However, 98% planned to incorporate it into their program by next year.
- E-learning increases learning retention rates by 25% and 60%.
- An “American Society for Training and Development” survey of 2,500 companies discovered that those with “comprehensive training programs” have 218% higher revenue per employee and 24% higher profit margins.

LEARNING

DESIGNED WITH

BUSINESS

TRAINING IN MIND

PREMIUM LEARNING EXPERIENCE

- The ITU Learning Management System is a proprietary online application designed by ITU from the bottom up. The LMS gives your company administrative rights over your employees courses by letting you monitor their learning and progress so you can reward success. It guarantees managers can be hands on with their employee's academic accomplishments by providing detailed progress reporting and allowing due dates and course expiration dates to be set.
- ITU online learning constructs our courses solely to ensure your employees reach their maximum potential by using all four types of learning: visual, auditory, kinesthetic, and reading/writing. Our courses aren't mere PowerPoint presentations. We only use highly experienced instructors certified in the course content being presented. Our instructors are experts in their fields and want to gift your employees with all the knowledge to thrive in their careers and help advance your company.

EDUCATION WITH ALL THE FLEXIBILITY

- We realize that today's employees are busy and mobile. We developed the system to be easy to use whether studying from a big screen to a mobile phone. Student progress is saved automatically enabling a student to study for a few minutes to hours and be able to pick right back up where they left off.
- This system gives you these powerful features:
 - A primary dashboard showing students which courses are in progress for easy quick access.
 - Detailed tracking of course activity that logs viewing actions like start time, stop time, pause, rewind, and fast-forward activity.
 - Set due dates and course expiration dates to control student learning times.
 - Easily add new team members on a per-seat license during your existing term.
- Additional learning tools, instructor notes, exams, and other study materials are included to ensure employees retain the content being taught. All courses allow employees to review course videos and retake test exams to guarantee maximum retention of learning.

MASTER AND TEST YOUR LIMITS

- The ITU Online Training Library covers an extensive array of training designed to meet a comprehensive array of IT technology used in every industry. We have courses in Cybersecurity, Project Management, Microsoft, CompTIA, Cloud, Cisco, Amazon, Dev Ops, Adobe, and so much more.
- Our system allows your employees to hyperfocus on specific technologies or the opportunity to round out their technical skills in many different areas.

- We dedicate ourselves to keeping up to date with all new certifications and software solutions.
- We are the only online learning organization that offers you a Lifetime All-Access library, which gives you access to every new course that will be produced as well as all our existing courses.

PRICING

No matter your company size, ITU Online has a Team Tech Training option for you.

	One Year Access	Lifetime Access	SPECIAL OFFER Lifetime Access

Over 20 Users	Call for pricing	Call for pricing	Call for pricing

1. One-year access provides access to all current courses in our library available at the beginning of the 1-year term and may be renewed annually. Courses and version updates released after the start of your 1-year term are automatically added upon renewal at the end of the 1-year term.
2. Under our Lifetime Access program, you gain access to every new course we produce in the future as well as all existing courses. Pricing for the Lifetime Access option is a one-time payment.
3. Additional pricing discounts and other benefits including custom company branding options are available for packages with more than 20 users.

A MESSAGE

from our president and CEO

We serve our clients by offering a unique accumulation of highly specialized knowledge and experience.

ITU Online is the leader in providing online IT training courses. Unlike others in the industry, we build all our curriculum in-house using our expert digital production studios at our corporate headquarters.

By using proven educational concepts and sound instructional design principles, we create the highest quality courses in the IT training field.

To deliver our standard for quality, we employ only master experts in that subject matter to create our award-winning training courses. ITU has won four Best in Biz Awards covering Company of the Year, Fastest Growing Company of the Year, Creative Department of the Year, and Most Innovative Company of the Year. We also won Best Cisco Training Services for 2022 by the Business Insights Awards and two 2021 Cybersecurity Excellence Awards by Cybersecurity Insiders. These awards solidify what our 700,000 of satisfied students already know, which is that we provide courses unmatched in quality at a price point lower than the competition.
